the coolant temperature never exceeded 195 degrees on the climb over the summits and the jake brake easily controlled our descent; i never touched the brake pedal all the way down.

a veteran of 35 even though he is in his second test, waited for the ball as cagily as ian bell had when

try coloured, flavoured and ribbed condoms; they could provide extra fun (just make sure they have a kitemark or ce mark on them).

so the food manufactures make cheap food they know is bad for you, and anything that is healthy is made more expensive; only those who can afford it can live longer
